- **Save Money - Reduce Manual Efforts - Eliminate Errors –**

No Monthly Fees! - No Transaction Fees! - We do all the mapping!

EZOrderLink – Standard Edition

This is our most popular and lowest cost release. Get your orders from your partner and process them using this lightweight easy to use configuration. 799.00 Seat License (additional seat licenses 99.00 ea) 199.00 per integration point. 20% annual maintenance.

EZOrderLink III – Netsuite-eBay connector Edition

This edition is specifically designed to combine the full automation from our Pro edition with the mapping and integration components for a seamless Netsuite-eBay integration. 2499.00 plus 20% annual maintenance. (Additional seat licenses 199.00 ea)

EZOrderLink IV – Netsuite-Amazon connector Edition

This edition is specifically designed to combine the full automation from our Pro edition with the Amazon AMTU tool to create a full automation Netsuite-Amazon integration. 2499.00 plus 20% annual maintenance after first 12 months. (Additional seat licenses 199.00 ea)

Affordable EDI by EZOrderLink – EDI version

This special edition is designed by EDI specialists in the field of ecommerce and EDI documents exchange. Any EDI configuration imaginable can be addressed with this edition. All EDI documents are expressed in X12 4010 thru 5010 formatting and can accommodate the most demanding throughput by exceeding industry standards for scalability. Built on the proven Microsoft framework this workhouse is ready to take on your most demanding EDI requirements. Affordable EDI by EZOrderLink supports EDI documents: 850, 855, 856, 810, 940, 945, 997 and more. This edition includes EDI mapping and the power of our scheduler. Data is automatically gathered from your partner's systems with records such as sales and customer data and entered in Netsuite or the other direction ... from Netsuite to your partner with records such as ship confirmations, product updates and more - without any human intervention. Ideal for large corporations and enterprises that have high volume integration needs or small to mid sized companies wishing to lower resource costs and automate EDI processing. 2499.00. Additional marketplaces 1396.00ea

A 20% annual maintenance is effective after the first 12 months. This includes updates for changes with your trading partner or Netsuite updates as well as phone, email support training and installation.

Netsuite - Yahoo Connector by EZOrderLink

This edition is specifically designed to combine the full automation from our Pro edition with the mapping and integration components for a seamless Netsuite-Yahoo integration. 2499.00 plus 20% annual maintenance. (additional seat licenses 199.00 ea)

EZOrderLink – Pro Edition – Full Automation*

...Take the daily human intervention out of the equation. Let your system retrieve your orders, update shipping confirmations and update pricing with 1 easy scheduler. This edition includes the first 2 marketplaces. Additional marketplaces are 1396.00 ea.

4200.00 (additional seat licenses 199.00 ea) additional partners quoted.

EZOrderLink Trading Hub -

We also offer a full service EDI hosted solution. This configuration is hosted on our servers and can deliver a full EDI automation between your trading partner and Netsuite. 700.00 Sign On plus 600.00 per marketplace (or trading partner) setup plus 99.00 per month hosting. Additional partners 600.00 setup + 24.99/month. NO transaction or line item fees!!! This is a great value and includes most popular transport layers such as AS2, FTP, FTPS, HTTPS or most any VAN that allows a direct connection.

"...Which version is best for me?"

EZOrderLink Standard Edition requires the user to get the data (either from email or a web site for example) and then click open, process etc... to import the data file into Netsuite. Ideal for small to midsize organizations with limited budgets.

EZOrderLink Full Automation Edition does not require the user to get and process a file. The data is automatically gathered from your partner's systems with records such as sales and customer data and entered in Netsuite or the other direction ... from Netsuite to your partner with

records such as ship confirmations, product updates and more - without any human intervention. Ideal for large corporations and enterprises that have high volume integration needs or small to mid sized companies wishing to lower resource costs.

EZOrderLink Trading Hub hosted solution requires no hardware or software on your end. This solution runs on our servers. Ideal for high volume EDI or users or users that simply don't want to host an application themselves in house. NO transaction or line item fees!!!

"...Can we get a deal on multiple marketplaces?"

EZOrderLink can be configured to automate many marketplaces and if this is your requirement we will be happy to quote based on your specific group of integration partners.

"...How soon can we get started?"

EZOrderLink can typically be configured and tested within 2 weeks. Sooner if your company requests it. Why wait? *Call today to get started – streamline your business for success!*

"...I don't see our marketplace, Overstock, Target, etc... do you offer these?"

EZOrderLink is offered for a variety of marketplaces as a package. This list only mentions our most popular. Custom integrations for virtually any marketplace are also available providing that marketplace has import/export, web services, API's or any other data exchange method.

*Certain requirements may apply for full automation systems.
Feel free to call or drop a line for more information or to review a quote today!
